

Beginner's Guide to Delicious

The Web is a big place, full of new and interesting things to discover. The problem is finding the good stuff and keeping track of it all. This is where Delicious can help.

Delicious is a Social Bookmarking service, which means you can save all your bookmarks online, share them with other people, and see what other people are bookmarking. It also means that we can show you the most *popular* bookmarks being saved right now across many areas of interest. In addition, our search and tagging tools help you keep track of your entire bookmark collection and find tasty new bookmarks from people like you. **Join Now!** It's free!

Delicious, the tastiest bookmarks on the web. Save your own or see what's fresh now!

All your stuff in one place

Get to your bookmarks from any computer, anytime, anywhere.

Are you having a hard time keeping track of all the interesting Web pages you find? Would you like access to your bookmarks from any computer? Delicious can help.

Delicious keeps all your bookmarks in one place so you will never lose track of your bookmarks again. Since we store your bookmarks online, you can get to them from any computer, whether you're at home, at work or on the road. **Join Now!** It's free!

Your bookmarks will organize themselves

Tag your bookmarks. Collections will naturally emerge.

Folders were the old way to organize your bookmarks. They were great if you only had a few bookmarks and a few folders, but as your collection grew, it became harder and harder to decide what goes where. Delicious has a new and better way: tags.

Tags are simply words you use to describe a bookmark. Unlike folders, you make up tags when you need them and you can use as many as you like. This means, for example, that all of the bookmarks you tag with funny and video will automatically be placed in the "funny" collection and the "video" collection. Since tags work the same way for everyone, you can also check out other people's "funny" or "video" bookmarks. You can even combine tags to see bookmarks with funny and video. *Join Now!* It's free!

For instance, if you find a recipe online that is both French and vegetarian, simply tag it with "french" and "vegetarian". As your collection of bookmarks grows, you'll see this bookmark on your 'vegetarian' tag page as well as your 'french' tag page. This is also a great way to share your knowledge with friends- as every tag page has an easy to remember URL that you can send on to interested parties.

Dish out your bookmarks to friends

And see what others are sharing with you.

Do you like to share cool or funny Websites with your friends? Or do you know people who are always finding interesting stuff? Delicious hooks it all together.

You can share bookmarks with your friends on Delicious, your Twitter universe, or friends and family via the old-school way – electronic mail. *Join Now!* It's free!

The best sites bubble up

See the most popular bookmarks for any tag.

Do you ever wonder what's hot right now on the Web? Or are you looking for the most popular Websites on a specific topic? Delicious is the answer.

The Delicious Home page shows you the hottest bookmarks on Delicious right now. You can also explore what's hot for any particular topic by checking out the most popular bookmarks for any tag. Delicious has a little bit of everything, from the best *programming* tips to the most popular *travel* sites. *Join Now!* It's free!

Getting Started, Try It Out!

What is Delicious?

Delicious is a social bookmarking service that allows you to *tag, save, manage* and *share* Web pages all in one place. With emphasis on the power of the community, Delicious greatly improves how people *discover, remember* and *share* on the Internet.

Things you can do with Delicious

Bookmark any site on the Internet, and get to it from anywhere

Instead of having different bookmarks on every computer, Delicious makes it easy to have a single set of bookmarks kept in sync between all of your computers. Even if you're not on a computer you own, you can still get to your bookmarks on the Delicious website.

Share your bookmarks, and get bookmarks in return

If your friends use Delicious, you can send them interesting bookmarks that they can check out the next time they log in. Of course, they can do the same for you. As you explore the site and find interesting users, you can use our Subscriptions and Network features to keep track of the Delicious tags and users you find most interesting.

Discover the most useful and interesting bookmarks on the web

See what's hot with Delicious users by checking out our popular tags. By looking at popular bookmarks for a tag, you'll be able to discover the most interesting bookmarks on the topics you're most interested in. Browse bookmarks on just about anything from the best *programming* tips to the most popular *travel* sites, all in an easy to read format.

Saving a Bookmark

Saving a Bookmark on Delicious is likely to be a little different than what you're used to. Don't worry, we've made the process intuitive and you'll find that tags and notes will make your bookmarks much easier to manage.

Depending on which buttons you've added to your browser, you can click the "Tag" or "Bookmark this on Delicious" button to save a new bookmark. Regardless of the buttons you've chosen, you'll see the following fields.

URL:

The URL field is simply the address of the page you're bookmarking. This should be filled out for you. Only change this if you know what you're doing.

Title:

If you're using one of our bookmarking tools, this will be prefilled with the title of the page you're saving. Feel free to edit this in any way that makes sense to you.

Notes:

Here's where you may want to write some additional info for yourself or to let others know why you bookmarked this page.

Tags:

Enter one or more tags separated by spaces here. They are optional, but we suggest using them, as they make your bookmarks much easier to organize and navigate. For more on tags, read our tags section.

Send:

People and places you want to share your Bookmark with. This could be the social network Twitter, an email address, or a Delicious user

Message:

A message that will appear with your Tweet, Email, or Delicious message. Limited to 116 characters.

» To share all of your bookmarks with twitter, [Edit Settings](#)

Email

Once a bookmark is saved, this is how it looks in Delicious:

Getting Around

We've organized the site into three main sections: Bookmarks, People and Tags. When you are logged in, these menus give you quick access to your Bookmarks, Network and Tags pages.

Our search allows you to not only search your own bookmarks, but virtually any context in Delicious. For example, you can now search a bundle, a tag, your Network, or another person's bookmarks from our handy search box in the header.

On most pages, our submenus allow you to quickly view Bookmarks, Network, Tags or Subscriptions for yourself or anyone else. Create a public profile, including a display name, to change how you appear in Delicious to others.

Joshua's Bookmarks

Bookmarks | [Network](#) | [Tags](#) | [Subscriptions](#)

See more bookmarks in [Popular](#) or [Recent](#)

Use our Tag Bar to quickly navigate your bookmarks by using tags and tag combinations. Just start typing - autocomplete will help you find the tag you want. You can also sort your bookmarks in a variety of ways to make your browsing easier.

On the right side of the screen, our sidebars help you navigate tags and people quickly and easily.

You can quickly see what a person's bookmark collection is all about by looking at the top ten tags in their sidebar.

▶ All Tags	567
▼ Tag Bundles	
▶ web design	14
▶ cooking	22
▶ politics	4
▶ cars	18
▼ humor	
funny	37
haha	53
hahahahaha	1
lol	28
lolcats	18
political	5
video	43

From the sidebar, you can now refine your view to show all bookmarks in a specific bundle. You can now bundle your network and subscriptions too!

Confused about who 'stlhood' is? Give any user in your Network a private nickname.

The screenshot shows the 'Edit User' dialog box for a user named 'britta'. It has a title bar 'People' and a subtitle 'Network 47'. Below that, it shows 'Network Bundles' with 'friends 23'. The user's name 'britta' is displayed with an up/down arrow. The main content area is titled 'Edit User' and 'Select name to display...'. It has two radio buttons: 'Username' (selected) and 'Nickname'. The 'Username' option shows 'osunick'. The 'Nickname' option has an input field containing 'Nick'. There are 'Save' and 'Cancel' buttons at the bottom. A help link 'Learn about names' is at the bottom right.
